Solvitol Brake Cleaner

Description

Solvitol Brake Cleaner (BCL11) is an effective blend of hydrocarbon solvents developed following the demise of 111 Trichloroethane.

Applications

It is designed to clean brake and clutch units without the need for time consuming dismantling. It removes brake fluid, dirt, oil, grease, dust, etc. from brake and clutch units. Braking efficiency is maximised by the removal of dangerous oil and grease deposits. Brake cleaner also helps to eliminate brake squeal by removing pad and shoe dust.

Benefits

- * 111 Trichloroethane free
- * Quick drying
- * No residue
- * No rinsing required

Technical Data

Appearance	: Clear liquid
Contents	: Hydrocarbon solvent blend with perfume
Storage	: Below 50 degrees C
Flash Point	: <0 degrees C

Pack Sizes: -

Aerosol 400ml and 150ml

Directions for Use

Shake can well. Spray liberally using force of the spray to loosen grease, dirt etc. allowing it to run off. Concentrate on shoes, pads, discs and drums for maximum braking efficiency. Allow to air dry. Protect rubber and plastic parts from over spray. Avoid contamination of hydraulic fluid with this product.
