## Solvitol Multi Line – Line Marking System

### Description

Solvitol Multi-Line (MLG) is an aerosol packed product, which is used in conjunction with a manually wheeled applicator. The product is long lasting, high performance, hardwearing and chemically resistant. It is available in seven colours – white, yellow, red, green, blue, black and orange. Each aerosol will produce approximately 75-100 metres of line 50mm in width.

### Applications

Solvitol Multi-Line is designed for use in car parks, warehouses, factories, no go areas, passageways, recreational facilities and school playgrounds etc., where long lasting lines are required.

### Benefits

- \* Easy to apply
- \* Fast drying
- \* Hard wearing
- \* Chemical resistance
- \* Resists dirt pick up
- \* Semi gloss finish.

### Technical Data

Appearance	:	Coloured paint
Odour	:	Characteristic
Touch dry	:	10-15 minutes
Full cure	:	2-3 hours

**Pack Sizes:** - 750ml aerosol

### Directions for Use

Solvitol Multi-Line aerosols are designed for use with the Multi-Line applicator. Ensure that the surface to be painted is dry, clean and free from oil, grease, grime and dirt. Shake the can vigorously for 1-2 minutes until the agitator balls are rattling freely. Fit nozzle to the upright can. Invert the can and fit in the applicator. Press the trigger on the applicator whilst moving forward. The speed of movement controls the density of the line. After use, clear the nozzle by spraying the can in the upright position.

### Health and Safety

Health and Safety information is available from the Technical Services Department of: - Solvitol Limited, Portobello Industrial Estate, Birtley, Co. Durham DH3 2RE. Fax 0191 492 0503
